SKILLS

Data Analysis & Cleaning: Data Wrangling, Data Validation, Exploratory Data Analysis (EDA)

Data Visualization & BI: Power BI Dashboards, KPIs, Slicers, Interactive Reports

Programming & Querying: Python (Pandas, NumPy), SQL (MySQL)

Excel Expertise: Pivot Tables, VLOOKUP, Power Query, Dashboards

Soft Skills: Analytical Thinking, Problem Solving, Communication, Time Management

PROJECTS

Hospital Management System Software

📅 04/2025

- Hospital operations automated using MS Excel with VBA, Macros, and advanced functions
- The system streamlines patient registration, doctor details, appointments, billing, and reporting through interactive forms and dashboards, with automation ensuring accurate data entry, validation, and analysis

Sales & Customer Dashboard

📅 12/2025

- Developed an interactive dashboard using Excel, KPIs, and advanced Excel functions to analyze sales performance
- Customer trends, and key business metrics, enabling clear insights and data-driven decision-making

Airline Flight Delay Analysis

📅 10/2026 - 12/2026

- Built an end-to-end project using Excel, MySQL, and Power BI
- Data was cleaned, stored, and analyzed to identify delay trends, airline performance, and on-time percentages through interactive dashboards

Care Transition Analysis

📅 02/2026 - 10/2026

- Built a healthcare analytics project analyzing patient care transitions across admission, discharge, and post-discharge follow-up stages using Excel, MySQL, and Power BI
- Cleaned and integrated discharge, readmission, and follow-up data to identify bottlenecks in care handoffs and gaps in care coordination
- Designed interactive Power BI dashboards tracking readmission rates, average transition time, and follow-up compliance to support data-driven improvements in patient care continuity

SUMMARY

Data Analyst with hands-on experience in Python, SQL, Excel, and Power BI, specializing in data cleaning, data visualization, and dashboard development. Skilled in exploratory data analysis, KPI tracking, and translating large datasets into actionable business insights. Currently pursuing a Master of Technology in Artificial Intelligence and Data Science, with a strong foundation in data wrangling, database querying, and business intelligence reporting

EDUCATION

Master of Technology (M.Tech) – Artificial Intelligence & Data Science

Maharshi Dayanand University, Rohtak

📅 2025 - 2027

Bachelor of Technology (B.Tech) – Computer Science Engineering

A.K.T.U University, Lucknow

📅 2019 - 2022

PROFESSIONAL EXPERIENCE

Data Analyst Intern

zillionsofttech

📅 05/2025 - 01/2026 📍 Rewāri, India

Training specializing in Data Analytics.

- Completed **10+ real-world data analytics projects** using **Excel, SQL, Python, and Power BI**.
- Cleaned and transformed datasets containing **50,000+ records** using Excel, SQL, and Python, improving data quality for analysis.
- Automated data preparation with Python (Pandas), reducing manual analysis time by **40%**.
- Presented findings through dashboards and visual reports, enabling data-driven decision-making.
